### Bike Torque Racing

Bike Torque Racing is a leading distributor of high-quality hard parts, and exclusive UK distributor for many leading brands including Matris.

Matris is an Italian company which has been producing the finest quality suspension products for over 30 years. Its extensive range includes speed-sensitive steering dampers, rear shock absorbers for road or track use and a large range of fork kits. Perhaps the most exciting new product from Matris this year is the new F15 Fork Cartridge Kit which converts non-adjustable forks found on many of the most popular non-sports bikes to allow full adjustment of preload, compression and rebound damping.

### Central Wheel Components

Central Wheel Components will be exhibiting its full Classic range of steel, chrome-plated (British and Elite Chrome) and stainless-steel rims, plus its Excel range of valanced and non-valanced alloy rims and the exclusive Akront range of alloy rims.

The full range of CWC galvanised and stainless steel spokes and nipples will be on show, as will SM Pro Platinum MX wheels, rims, hubs and Bulldog high-tensile stainless spokes.

The SM Pro Platinum rim is now acknowledged as the world's strongest and lightest aftermarket MX / off-road rim.

The "New" SM Pro Race wheels will also be on display

### Lextek

Lextek is launching its dealer network at Expo 2016 with an extensive range of indicators, exhausts, luggage and aftermarket and OEM parts all available with great margins and fantastic stocking opportunities. For 2016 Lextek is delighted to announce that it will be offering in shop displays to maximise the exposure of this up-and-coming high-quality low-price brand! We are looking for dealers who are interested in stocking the Lextek range so please visit us and see what we can offer. Lextek is coming and you cannot afford to miss it! Visit Lextek on stand B108 and see the range for yourself!

### Supatracks

With a one-size-fits-all design, three attractive finishes (Fluorescent, Metal Grey and Camo) and, like all Motoairbag products, meeting the latest airbag jacket standards, the new vZero is set to redefine motorcycle safety wear for the vast majority of motorcyclists for RRP £299.

Motoairbag UK, based in Scotland, is now setting up a UK dealer network for the full range - from the vZero to race suits, all incorporating its patented system. High-quality, practical and incredibly comfortable, Motoairbag is not just another modified back protector, it is a purpose-designed air jacket system that offers 20 times better protection than a CE Level 1 back protector, is washable, user-rechargeable and fully certified.

### Wulfspport

Wulfspport has launched another new off-road helmet confirming its position as the world's biggest off-road helmet range.

ECE R 2205-homologated, the Wulfspport Cub Flite-Xtra helmet is designed specially for kids and features a TPR shell with removable and washable lining and cheek pads. In seven colour ways, it has a stunning trade price of £24.95.

Come and see the full 2016 Wulfspport range.
