

Barracuda levers

THESE new E-marked levers from Barracuda are made from billet aluminium and have a specific fitting bracket for different models.

The company's designers have incorporated special ergonomic features which make them both light and highly functional, they are available anodised in black or gold, sold in pairs.

The parts are delivered within 24 hours of the order being placed in Italy and within 72 hours in the rest of Europe.

Other than the Barracuda Italy website below, there are also Barracuda country-specific websites for France, the Netherlands, Belgium, Switzerland, the Czech Republic, Germany and Spain.

The company will be at INTERMOT in Hall 8, Stand B30

Highsider Indianapolis headlight

THE new Highsider wide beam Indianapolis headlight is equipped with 9x3 Watt power LEDs, which supply a really bright light, according to the company.

Electricity usage is claimed to be only a third of similar lights (1.4 Ampere, 17.5 Watt at 12.5 Volt). It has a metal housing (diameter 108 mm x depth 129 mm) and comes in chrome or black. The insert with a universal holder is also available.

This product has a TÜV approved E-number and is therefore road legal.
